

**KEY**

- ..... existing pavement alignment
- - - - - current school boundary wall
- spherical concrete bollard painted blue
- ◡ pavement level flower bed
- ◡ seating level flower bed - approx 400mm high

**DESIGN FEATURES**

- A single lane narrowing of about 30 m (lane width of 3.4m)
- Pavement widening on both sides (approx 2.5m on the north side, and 3.5m on the south)
- Artwork designed by the children to highlight the presence of the school to oncoming traffic
- Give way for traffic coming from the west
- No change to parking restrictions in front of the Coop
- Planters (the two central one high enough for people to sit on, the others low)
- Bollards (number depending on budget)
- Option to relocate the school wall at a later stage, to allow a further widening of the pavement (of additional 2.5m or 50)
