<b>British Values</b> <i>(See also separate document.)</i>	Democracy, rule of law, individual liberty, mutual respect and tolerance of different faiths and beliefs. Fundamental British Values are taught throughout the year.					
<b>Literacy: Overview</b>	Two of the most important aspects of learning in school are reading, both the comprehension of language and word reading, and writing. Families are given information about how to support literacy learning before their child starts school and at workshops. Reception in Menston is a text-rich environment. Books provide the key to topic planning and are shared and enjoyed daily, along with songs, poems and rhymes. Children take home school library books and visit Menston Library. Phonics lessons begin in the first full week of school. Children are taught to decode words using their phonic knowledge and to sight-read tricky words. Writing starts with oracy and language skills are developed through engaging provision and structured teaching. Fine motor skills are developed through planned activities and opportunities in provision. Handwriting is taught from the start of the year. Transcriptional skills are taught in line with phonics teaching, and children are encouraged to compose their own sentences, orally at first and then on paper. Writing dictated sentences offers children the chance to write at a level matching their phonic knowledge. Success in literacy is shared and celebrated.					
<b>Literacy: Comprehension</b>  <b>ELG</b> Demonstrate understanding of what has been read to them by retelling stories and narratives using their own words and recently introduced vocabulary. <p><b>Maths: Overview</b></p>	<p>Maths learning in Reception provides children with key counting skills and a good understanding of numbers to ten. Learning is based on the NCTEM's Mastering Number Programme in and additional lessons are taught covering shape, space and measure and following children's interests. Children learn through a combination of direct teaching, group work and self-led activities. Some maths is taught outdoors. Children have opportunities to practice their mathematics using a wide range of manipulatives, Hungarian number frames and tens frames. Mathematical language is modelled and maths learning is also supported through songs, books, stories and a number-rich environment.</p>					
<p><b>Maths: Number &amp; Number Patterns</b></p> <p><b>ELG</b> Have a deep understanding of number to 10, including the composition of each number. <p><b>Expressive Arts and Design: Overview</b></p>	<p>Art is taught following the Kapow scheme, which has clear skills progression. Children also have daily access to a range of materials for working on their own art or junk model creations. Many children choose to create with resources such as Lego or blocks. This area of learning is carried through outside with materials such as paint and chalk, and crates. Continuous provision is enhanced with props to support topic learning or children's interests. Plan, do, review structures enable children to talk about what they have done and evaluate their success. Storytelling is supported through puppets and children often choose to make their own puppets. Planned music lessons give children exposure to a wide range of musical genres and a chance to move to music, which is further on offer in provision.</p>
